- Access to repository / usability of views?
- Access via web or direct download
- table dfgs & QC
- Authority on site/tx: repo vs NARS
- re-make vs. update? → need new table

\* was service idea: use "site" table in tabled format  
 - PII issues!  
 ASAP

tax + location current?  
 holds?  
 \* good enough

- soil summary > 2x
